

Automotive Edge Computing Consortium

Use-case and Requirement Document (URD)

Version 2.0.0

December 25, 2018

Table of Contents

1. Scope	1
2. Abbreviations	1
4. Actors	3
5. General Requirements	5
6. Use Cases and Requirements	5
6.1. Intelligent Driving: Vehicle Data Collection	9
6.1.1. Description	9
6.1.2. Actors	9
6.1.3. High-level Illustration	10
6.1.4. Flow	10
6.1.5. Requirements	10
6.2. Intelligent Driving: Selective Vehicle Data Collection	11
6.2.1. Description	11
6.2.2. Actors	11
6.2.3. High-level Illustration	12
6.2.4. Flow	12
6.2.5. Requirements	13
6.3. Intelligent Driving: Data Processing Distribution	13
6.3.1. Description	13
6.3.2. Actors	14
6.3.3. High-level Illustration	15
6.3.4. Flow	15

6.3.5.	Requirements	16
6.4.	Intelligent Driving: Selective Data Collection via MSP Edge Server	17
6.4.1.	Description	17
6.4.2.	Actors	17
6.4.3.	High-level Illustration	18
6.4.4.	Flow.....	18
6.4.5.	Requirements	19
6.5.	Intelligent Driving: Access Network Selection	20
6.5.1.	Description	20
6.5.2.	Actors	20
6.5.3.	High-level Illustration	20
6.5.4.	Flow.....	21
6.5.5.	Requirements	21
6.6.	Intelligent Driving: Inter-edge Hand-over (Vehicle Trigger)	22
6.6.1.	Description	22
6.6.2.	Actors	23
6.6.3.	High-level Illustration	23
6.6.4.	Flow.....	23
6.6.5.	Requirements	24
6.7.	Intelligent Driving: Inter-edge Hand-over (Center Trigger)	24
6.7.1.	Description	24
6.7.2.	Actors	25
6.7.3.	High-level Illustration	26
6.7.4.	Flow.....	26

6.7.5.	Requirements	27
6.8.	Intelligent Driving: Parameter Dissemination	27
6.8.1.	Description	27
6.8.2.	Actors	27
6.8.3.	High-level Illustration	28
6.8.4.	Flow.....	28
6.8.5.	Requirements	28
6.9.	High-definition Map: Vehicle Data Collection	29
6.9.1.	Description	29
6.9.2.	Actors	29
6.9.3.	High-level Illustration	29
6.9.4.	Flow.....	29
6.9.5.	Requirements	29
6.10.	High-definition Map: Data Processing Distribution.....	29
6.11.	High-definition Map: Access Network Selection	30
6.12.	High-definition Map: Inter-edge Hand-over.....	30
6.13.	High-definition Map: Map Data Delivery	30
6.13.1.	Description	30
6.13.2.	Actors	30
6.13.3.	High-level Illustration	30
6.13.4.	Flow.....	31
6.13.5.	Requirements	31
6.14.	High-definition Map: Data Compression and Extraction	32
6.14.1.	Description	32

6.14.2. Actors	33
6.14.3. High-level Illustration	33
6.14.4. Flow.....	33
6.14.5. Requirements	34
6.15. High-definition Map: Intelligent Data Routing and Caching.....	34
6.15.1. Description	34
6.15.2. Actors	34
6.15.3. High-level Illustration	35
6.15.4. Flow.....	35
6.15.5. Requirements	36
6.16. High-definition Map: Data Integration	36
6.16.1. Description	36
6.16.2. Actors	36
6.16.3. High-level Illustration	37
6.16.4. Flow.....	37
6.16.5. Requirements	38
6.17. High-definition Map: Delta Update	38
6.17.1. Description	38
6.17.2. Actors	38
6.17.3. High-level Illustration	39
6.17.4. Flow.....	39
6.17.5. Requirements	40
6.18. High-definition Map: Resource Scaling	40
6.18.1. Description	40

6.18.2. Actors	41
6.18.3. High-level Illustration	41
6.18.4. Flow.....	41
6.18.5. Requirements	42
6.19. V2Cloud Cruise Assist: Vehicle Data Localization.....	42
6.19.1. Description	42
6.19.2. Actors	44
6.19.3. High-level Illustration	45
6.19.4. Flow.....	45
6.19.5. Requirements	46
6.20. V2Cloud Cruise Assist: MSP Edge Server Selection.....	47
6.20.1. Description	47
6.20.2. Actors	47
6.20.3. High-level Illustration	48
6.20.4. Flow.....	48
6.20.5. Requirements	49
6.21. V2Cloud Cruise Assist: Fast Local Reaction	49
6.21.1. Description	49
6.21.2. Actors	49
6.21.3. High-level Illustration	50
6.21.4. Flow.....	50
6.21.5. Requirements	50
6.22. V2Cloud Cruise Assist: Vehicle Data Distribution via Different Networks ...	51
6.22.1. Description	51

6.22.2. Actors	51
6.22.3. High-level Illustration	52
6.22.4. Flow.....	52
6.22.5. Requirements	52
6.23. V2Cloud Cruise Assist: Seamless Service Migration.....	53
6.23.1. Description	53
6.23.2. Actors	53
6.23.3. High-level Illustration	53
6.23.4. Flow.....	54
6.23.5. Requirements	54
6.24. V2Cloud Cruise Assist: Inter-edge Service Continuity	55
6.24.1. Description	55
6.24.2. Actors	55
6.24.3. High-level Illustration	56
6.24.4. Flow.....	56
6.24.5. Requirements	57
6.25. Multi-Tenant System: Multiple Vehicle Systems and Multiple Cellular Networks.....	57
6.25.1. Description	57
6.25.2. Actors	57
6.25.3. High-level Illustration	58
6.25.4. Flow.....	58
6.25.5. Requirements	59

6.26. Multi-Tenant System: Multiple Vehicle Systems, Multiple Cellular Networks, and Multiple MSP Edge Servers.....	59
6.26.1. Description	59
6.26.2. Actors	59
6.26.3. High-level Illustration	60
6.26.4. Flow.....	60
6.26.5. Requirements	60
6.27. Security: Identities and Authentication	61
6.27.1. Description	61
6.27.2. Actors	61
6.27.3. High-level Illustration	61
6.27.4. Flow.....	62
6.27.5. Requirements	63
6.28. Security: Secure Data Processing.....	63
6.28.1. Description	63
6.28.2. Actors	64
6.28.3. High-level Illustration	65
6.28.4. Flow.....	65
6.28.5. Requirements	65
6.29. Security: Personal Data Protection.....	66
6.29.1. Description	66
6.29.2. Actors	66
6.29.3. High-level Illustration	67
6.29.4. Flow.....	67

6.29.5. Requirements	67
6.30. Mobility Service: Fast Transaction.....	68
6.30.1. Description	68
6.30.2. Actors	68
6.30.3. High-level Illustration	68
6.30.4. Flow.....	69
6.30.5. Requirements	70
7. Overall Requirements	71
Annex A (Informative): Potential Use Cases	83
Annex B (Informative): Application Classification and Operational Behavior	85
